

DEATH LIST MAY REACH 75,000

Earthquakes in Italy and Sicily Most Appalling in History of the World

VESSELS ARE SWEEPED FROM SEA INTO FIELDS

Messina, City of 150,000 Wiped Out of Existence---Many Inhabitants Buried Under Ruins Alive Will be Destroyed by Flames---To Add to Situation Mt. Etna Belches Forth---Biting Cold and Torrents of Rain Make Suffering Almost Unbearable.

Rome, Dec. 29.—Italy as a nation is paralyzed. The evening papers are claiming that the deaths caused by the earthquake yesterday will reach 75,000. Conservative government reports say there are at least 25,000 refugees, and say the government estimate is far too low. Adding to the misery of the terror-stricken, suffering people, Mount Etna today erupted, emitting giant clouds of dense, black smoke, while low rumblings and detonations sound through the mountains. It is biting cold, and that, with torrents of rain, makes the suffering of the refugees in the stricken district well nigh unbearable. Telegraphic communication is partially restored to the quake shaken provinces. The towns practically or totally destroyed are Messina, Reggio, Palmi, Giovanni, and Ragnara. The death list at Catina is not so heavy as at other points, but the people are terror stricken at the activity of Mt. Etna. No word has been received from the fleet of ten Italian torpedo boats that lay off Messina, and they are believed to have gone to the bottom. French and English battleships have been ordered to hasten to the scene and to offer relief to the sufferers. The king of Italy is enroute personally to superintend the work of rescue.

Rome, Dec. 29.—The complete destruction of Messina, the second city of Sicily, with a population of 150,000, was confirmed in an official message to the Italian government today. The message expresses fear that Reggio, immediately across the Strait of Messina, has met a like fate. It says that most of the towns of the strait would be wiped out. The pope received dispatches today of the havoc wrought by the earthquake, and gave orders to arrange for a journey to Calabria. Medical advisers warned him that his health was such that the journey would probably prove fatal and the pope was finally dissuaded. All audiences at the vatican have been temporarily suspended.

Dozens of vessels swept inland by the tidal wave are now lying in fields, in some cases two miles from shore. They will be total wrecks.

King Victor Emmanuel has passed through Naples, enroute from Rome to the stricken provinces. Five thousand troops and a fleet are now enroute to Calabria and Messina. Army men say 5000 dead are accounted for. It is estimated the total deaths will reach 30,000, but this is believed to be exaggerated.

Palermo, Dec. 29.—Twelve thousand people are dead in Messina, according to the latest reports from that city. It is feared hundreds of inhabitants still live under the ruins and are doomed to perish in flames sweeping what is left of the city.

Rome, Dec. 29.—In a late edition today the Tribuna here estimates the number of earthquake victims at be-

PERRY COUNTY SALOONS MAY OPEN AT ONCE

Shawnee Hotel Proprietor States that "Wets" Claim Probate Judge Has Final Jurisdiction.

Mr. Patrick Clark, proprietor of the American hotel at Shawnee, Perry county, Ohio, was in the city a few hours Tuesday. He stated that the saloons in Perry county would likely open up at once, based on advice from the attorneys that are handling the case for the "wets." He further stated that the case resolves itself as to who has jurisdiction, the probate court or higher courts. The Probate Judge of Perry county held that the election was held too soon, consequently the election was illegal, then the saloons opened up. They were then closed, pending further action, but as the attorneys for the "wets" hold that the probate court has the final and only jurisdiction in such cases, and as the cases are sent back to this court for review, and as the Probate Judge has already given his decision in favor of the "wets" it is the logical conclusion that they can do business until further proceedings are enacted.

REPUBLICAN

Members of the Ways and Means Committee Cannot Agree on Single Item of New Tariff Bill.

Washington, Dec. 29.—After a dozen sessions the republican members of the ways and means committee are unable to agree on a single item in the new tariff bill. Two secret sessions are held daily but no final agreement has been reached. Ideas from trusts asking that the tariff be maintained are still coming in.

KILLED INDIAN

Wm. Morse, Son of Inventor of Telegraph, Gives Him self Up, Claiming Self Defense.

San Diego, Cal., Dec. 29.—Contending that he acted in self-defense, Wm. Morse, son of Samuel F. Morse, inventor of the telegraph, gave himself up to the authorities. He is accused of the murder of an unknown Indian. Morse was a member of a hunting party and says that he told the Indian to build a fire and the Indian attacked him with a knife. Morse shot in self defense he says. Friends are making every effort to get Morse admitted to bail or be released.

and Mrs. Michael Ruff, 193 Jefferson street. Miss Teckla who is 13 years of age came to Newark with her parents from Louisville, Ky., three years ago. Mr. Ruff is a popular molder at the Wehrle foundry, while his daughter is in the seventh grade of St. Francis de Sales school. Miss Teckla wants to express through the Advocate her thanks to all who helped her to win the first prize.

ENGAGEMENT AT MACURO

VENEZUELAN GUN BOAT BRINGS NEWS OF INSURGENT BATTLE.

Rebels and Government Troops in Four Hour Conflict—Twenty Were Killed.

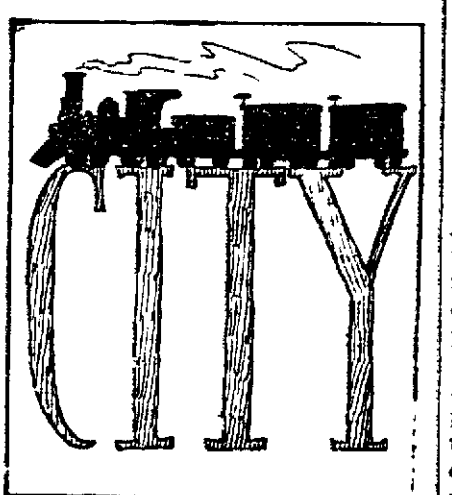

Port of Spain, Trinidad, Dec. 29.—News of an engagement at Macuro between the adherents of Castro and the officers of the new Venezuelan government in which twenty were killed and fifty wounded, was brought today by the Venezuelan gun boat Miranda. The Miranda arrived at Macuro yesterday with officers to take the place of the Castro men in the Venezuelan government. They discovered General Torres with 500 men, who resisted their landing. The Miranda used her guns and the men tried to land, but were repulsed. The fighting lasted four hours.

The Miranda sailed from here for further instructions. Hundreds of local Venezuelans say they are ready to go back to fight Torres. Special U. S. Commissioner W. J. Budhanan and Admiral Arnold arrived at Laguayra today.

SHEATH GOWN DANCE.

Bellefontaine, Dec. 29.—Because a number of young society people of Urbana gave a sheath gown dance last week the city of Urbana is in an uproar. The ball has been denounced by press and pulpit, and it is said that parents have started an investigation. It is charged that the girls attended gaied in sheath gowns of many and varied patterns, and that the dances, to put it mildly, were startling.

RECEIVES GUESTS IN BLUE ROOM

Miss Ethel Roosevelt Makes Debut at Big White House Affair

DEBUTANTE PRESENTED

Music Furnished by Marine Band and Guests Partake of Supper at Midnight.

Washington, Dec. 29.—In the historic east room of the White house, beautifully decorated for the occasion, President Roosevelt's youngest daughter, Ethel, last night made her formal bow to society. Preceding the dancing in the east room, which began at 10, Mrs. Roosevelt and Miss Roosevelt received the invited guests in the blue room. Miss Roosevelt's gown was of soft white satin trimmed with crystals, while that of her mother was of dark blue satin.

Seldom, if ever, has the east room presented a more attractive picture. Seated on the platform at the north end of the room was the Marine Band orchestra, whose brilliant scarlet uniforms against a background of green formed a rich frame for the beautiful color scheme lavishly painted in the center of the room by the handsome gowns of the fair debutantes. The invited guests numbered about 400, only unmarried members of the younger set participating in the dancing. Among those present were: Mrs. Wm. S. Cowles and Mrs. Douglas Robinson, the president's two sisters; Mrs. J. Emien Roosevelt, Mrs. Simpkins, Mr. and Mrs. Robert Bacon, Mrs. Charles A. Munn, Mrs. Richard Wayne Parker and Mrs. Herbert Wadsworth. Theodore Roosevelt, Jr., who came home from Connecticut to spend Christmas with his parents at the White House, remained over to attend the dance.

At midnight the music ceased and the guests partook of a supper which was served at small tables arranged

along the lower corridor and rooms leading into this corridor.

Previous to the ball, Miss Roosevelt was the guest of honor at a dinner given by Assistant Secretary and Mrs. Bacon at their residence. Covers were laid for 60, the whole party going later to the White House. Mrs. C. A. Munn also entertained a large house party, which later went to the White House.

FOUR KILLED IN COLLISION

Carthage, Ind., Dec. 29.—In a head-on collision of freight trains on the Michigan division of the Big Four this morning, four men were killed. Both freight trains were demolished.

LAD KILLED BY TRAIN

Another distressing accident resulted from the train riding habit on Tuesday afternoon at 12:40, when Claude Gould, aged 12, the son of Mrs. Anna Kinney, of Union street, West Newark, fell under the wheels of a west bound B. & O. freight train and was ground to pieces, at the Pine street crossing in West Newark.

Stories of the accident vary. The Gould child and four other boys of about his age, Harry Rathbun, Willie Bowerway and two others whose names were not learned, boarded the freight train at the Union street crossing. At that time it was traveling at a moderate speed. The other boys jumped off about half way from the crossing, but did not see the Gould child until the train had passed, when his mangled form was found lying between the tracks. The investigation conducted by the first to arrive on the scene seemed to point to the fact that the lad had probably tried to jump off the train and slipped, catching his foot in a switch frog, where the severed member was found about 1,000 feet from the child's body. One of his legs was picked up 20 feet from the body.

The child's body was terribly mangled, the wheels of the train having passed diagonally across him from the middle of his left side downward, completely severing one leg, terribly mashing the other, and grinding off the right arm and the left hand.

Dr. D. M. Smith, who was aboard a city car at the crossing near the scene of the accident at the time, has

tened up the track to offer any aid that might be necessary, but the boy expired within two minutes of the time of the accident.

It is claimed by West Newark people that the Gould child had been in the habit of jumping freight trains, and that several of his companions are practicing the same dangerous habit. The boy had promised his mother but a few days ago that he would not jump any more trains. Claude had been sent from the restaurant of Joseph Brissell, 18 Union street, where his mother is employed, to carry dinners to the factory men at the Wehrle works. He has been engaged in this occupation for some time and made considerable sums of money by the favor.

Rovers & McCament's ambulance made a flying run to the Pine street crossing, but on the arrival of the ambulance it was found that the boy was dead and his body was conveyed to the undertaking parlors of the firm on Fourth street, to prepare the remains for burial.

The dead child has one brother, George Gould, aged 15, and one half-brother, Albert Kinney. The stepfather, William Kinney, is a machinist by trade. The mother was notified of the accident by Mr. Brissell, proprietor of the restaurant where she is employed, and is said to be in a serious physical condition from the shock. The remains will probably be taken to the home of the family on Union street, and the funeral is expected to take place Thursday afternoon.

DARK HORSE APPOINTED SECRETARY

Governor-elect Harmon Appoints Former State Senator Long

WELL KNOWN ATTORNEY

Cincinnati Man Named as Executive Clerk---Both Appointments Give Satisfaction.

Cincinnati, O., Dec. 29.—Governor-elect Harmon last night announced the appointment of George S. Long of Troy as secretary to the governor, and John Devanny of this city as executive clerk.

The appointment of Mr. Devanny was expected, because of the friendship which has for years existed between the governor-elect and Michael Devanny, father of the new executive clerk, but the selection of Mr. Long is a great surprise. Local Democrats have had the impression for a week that Senator B. F. Gayman of Canal Winchester would be appointed. In naming Mr. Long the governor-elect has gone outside of the list of all names suggested to him and has made a personal appointment. Mr. Long has had experience in state politics, having represented his county in the state senate and once having been chairman of the Democratic state committee. He is at present a member of the Democratic state committee. He is a lawyer and is practicing at Troy.

SECRETARY IS POPULAR MAN. Opinion That Governor-Elect Has Made a Good Selection.

Columbus, Dec. 29.—George S. Long, who will be Governor Harmon's secretary is well known here. He is a man of markedly pleasant address and a good speaker, and has had much experience in politics. Columbus men who heard of the appointment last night agreed that the governor-elect had made a good selection for the important position of secretary.

Mr. Long was senator from the Twelfth district from 1898 to 1901. This is the only political office he has ever held. He was a candidate at the recent election for prosecuting attorney of Miami county, but was defeated by a plurality of 200, while the average Republican plurality was 1200. Mr. Long is the law partner of Congressman Thomas B. Kyle. He is 50 years old, married and has one child, a son, who is a student at Dartmouth college.

GOVERNOR HARMON

Will Aid the Perry's Victory Centennial Commission.

Sandusky, Dec. 29.—That Governor-elect Harmon will lend the project such assistance as lies within his power is the assurance Webster P. Huntington, of Columbus, secretary, will give the Perry's Victory Centennial Commission meeting at the West House here today. The commission was appointed by Governor Harris under an act of the last legislature, to promote an exposition to be held at Put-in-Bay, in commemoration of the battle of Lake Erie, in 1913.

FEAR SIMPSON WILL RETURN

Stearns, Ky., Dec. 29.—Berry Simpson, leader of the striking miners, who mixed in a battle Christmas day together with three men in hiding with him, moved to a friend's house today. The house better affords grounds for a hot fight. Trouble is expected if they try to take the men. The miners returned to work today. Inhabitants fear that Simpson will carry out his threat of blowing up the mines and blowing up the town.

HOME COURSE IN MODERN AGRICULTURE

Series of Eighteen Short Lessons Prepared in an Interesting Way by Prof. Gregory an Eminent Authority Starts Tomorrow.

The Advocate has purchased a series of eighteen lessons constituting a Home Course in Modern Agriculture. These lessons will appear in this paper beginning in an early issue, each lesson being two columns in length.

These special articles each being illustrated are written by Professor C. V. Gregory of the Agriculture division of the Iowa State college. The knowledge imparted in this short but thorough course will be worth many dollars to the farmer and aside from the practical value, they are very interesting, revealing the magic of chemistry as seen in growing things. The success of scientific farming with its greatly increased yields has aroused strong interest among farmers throughout the country.

Lesson No. 1 tells how a seed starts to grow; No. 2 How plants eat and grow; No. 3, Preparing the ground; No. 4, Water in its relation to plant growth; No. 5, Leguminous crops and

rotations; No. 6, How plants are propagated; No. 7, The selection of seed; No. 8, Corn growing; No. 9, Weeds and how to combat them; No. 10, Some insect pests; No. 11, Bacteria—how they effect the farmer; No. 12, The selection and care of farm machinery; No. 13, How animals grow; No. 14, Some points on stock feeding; No. 15, Breeding live stock; No. 16, Farm buildings; No. 17, The farm home; No. 18, The business side of farming.

Thus it will be noted that Professor Gregory has well covered the field and has taken topics that will interest everybody who is identified with farming interests. The "Home Course in Agriculture" is so entertainingly conducted by Prof. Gregory that the city folks whose farming activity is confined to a small garden patch will be as much interested as their rural friends. Prof. Gregory's lessons are interesting as well as instructive. Watch for the first lesson in tomorrow's Advocate.

She may be as inane as a plate of cold mush and carry around with her a complexion that harmonizes, but pitapat goes his heart just the same.
After all, a good, big, active chunk of vanity makes a man healthy. Most men are healthy.
If a girl talks three consecutive times with a man he is dead certain she is in love with him.
The man who means well may be credited for it, but eventually it is the only creditable thing about him.
The reason and foundation of the average man's self conceit is just find-

ing exposure, dampness and cold. No better precaution against the rigors of winter can be had than Father John's medicine, because it keeps up the bodily warmth, curing coughs and colds, and building the body strong. It not only cures disease, but it supplies the strength and fighting power to resist disease.

BAD WEATHER COMING--PREPARE

It is predicted that January will be a disagreeable month, with blizzards and cold waves sandwiching warm spells. This is just the kind of weather that carried off the weak and sickly, and wears down the robust.
The safe thing to do is to fortify the system against the effects of com-

ing exposure, dampness and cold. No better precaution against the rigors of winter can be had than Father John's medicine, because it keeps up the bodily warmth, curing coughs and colds, and building the body strong. It not only cures disease, but it supplies the strength and fighting power to resist disease.

THE MARATHON CRAZE

Several Challenges For Longboat, Dorando's Conqueror.

SPORTING MEN EXPECT MORE.

Con Connolly, Albert Corey, Jim Crowley and Alfred Shrubbs in Line For Honors—How Longboat Entered Sport Which Languished For Years. New York and, in fact, the entire United States have gone Marathon mad.

Never in the history of American athletics has a sport which languished for years because of lack of patronage sprung so quickly into life again. Hardly had the lanky Tom Longboat, who until four years ago was a humble resident on a Canadian Indian reservation, defeated the game little champion, Dorando Pietri, the other night at Madison Square Garden, New York, than challenges from points even as distant as Los Angeles came in, says the New York American. The first offer was from managers in the California city, who state they are willing to pay \$4,000 each to Dorando and Johnny Hayes if they will run a Marathon on the coast.

Con Connolly, the San Francisco amateur who recently won the Marathon in that city, has wired a challenge to the Indian, the Italian and the American and is willing to desert the amateur ranks and turn professional, as about \$3,000, under present conditions, can be made in a night by a runner of his ability.

Albert Corey, a well known long distance amateur runner of Chicago, followed quickly with a challenge to any one willing to run the Marathon distance against him.

Jim Crowley, the bodacrier who recently captured first place in the Yonkers Marathon, is said to be willing to desert amateur ranks and become professional, divining that the long distance running game has come into its own and is a lucrative one. Alfred Shrubbs, who holds every world's record from five to fifteen miles and is regarded as the greatest long distance runner in the world's history, has been asked to engage in a Marathon, and it is indicated that he will do so. Sporting men expect that many more challenges will be received. Interest in Tom Longboat naturally was stimulated by his victory over Dorando. Many had known that the Indian for four years was regarded as the greatest long distance runner on the continent, but few knew just how he began his running career.

It was about five years ago that Longboat, who was poorer than Dorando when the latter was a humble baker in Italy, went to Hamilton, Ont., where a Marathon was to be run. The long legged descendant of the sons of the forest opined that he might just as well enter, even if only for fun. He did so, and he sped over a twenty-five mile course in the remarkable time of 2 hours 24 minutes. From that moment the young Indian, who had been a ward of the Canadian government, became an object of interest to all interested in sports. He had "found himself" and kept in the running game, capping his brilliant career with the vanquishing of Dorando Pietri, who he regards as a great runner and a game one.

UNIQUE EXPERIMENT.

Old Fashioned and Modern House-keeping to Be Compared.

A house divided against itself is to be made to serve the purposes of science at the University of Illinois. The department of household science at that institution has rented a large dwelling house near the campus and divided it into two equal apartments. One of these is fitted up in every respect according to the most improved methods and theories of household economics. The other is furnished according to the good old ways of our grandmothers. How far it is possible for the person with limited means to adopt the first instead of the second scheme of housekeeping is the problem to be evolved by experiments to last one year.

In one apartment only the most modern furnishings have been installed. Heating is done by gas and electricity. The preparation of foods and laundry work are accomplished by electricity. The floors are varnished or waxed and covered with rugs. In the other apartment hard and soft coal, wood and coke are used to heat the rooms as well as for cooking purposes. Oil lamps are used to illuminate the place. The water is drawn from a pump, and carpets are tacked to the soft pine floors.

Classes in household science have charge of each of the apartments under the supervision of the professors. A careful account of the expenses, the convenience and the time consumed in the preparation of foods and the discharge of all the other domestic duties is to be kept.

Street Car Men Paid Daily.

A novel pay system designed to save much housekeeping and clerical work is to be put into effect on the Philadelphia rapid transit system. There will be a daily payment of wages to motor-men and conductors. Each employee will be paid at his respective car barn as he finishes his run for the day. The receiving clerk at the barn will take the conductors' returns and audit them immediately. Should no error be found in either the returns or report the crew will at once be paid the day's wage, the money being taken from the cash collected for the day.

CELEBRATED

GOLDEN WEDDING

CHRISTMAS DAY

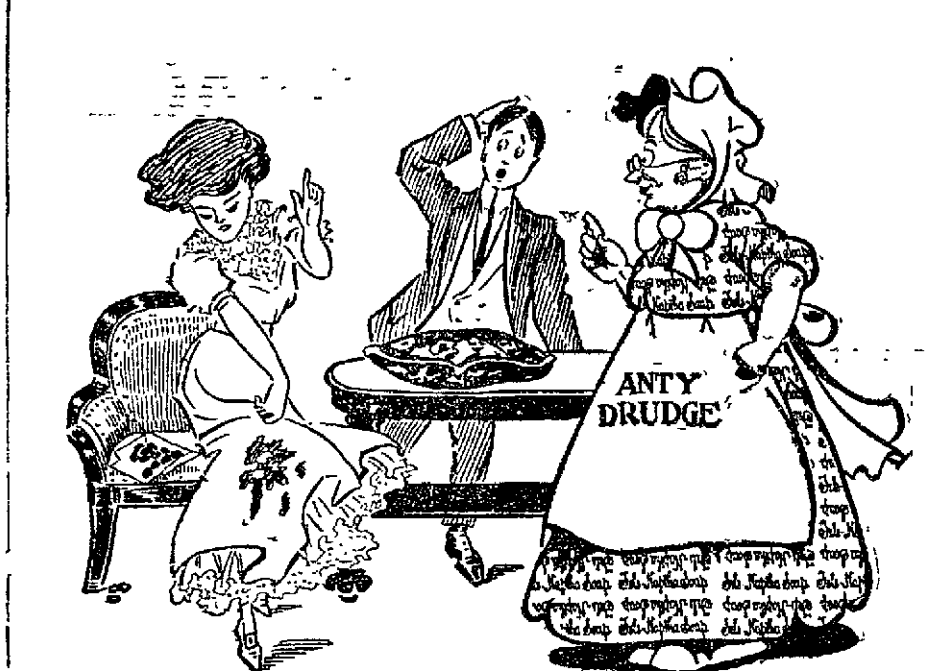

Mr. and Mrs. Jos. Rusier, Summit Station Couple, Handsomely Remembered.

Mr. and Mrs. Joseph Rusier of Summit Station, celebrated their golden wedding anniversary and the 70th anniversary of the birth of Mrs. Rusier, at their home, Christmas day. Their three children, one son and two daughters, and their families, including 18 grandchildren and five great-grandchildren, were present at the celebration. They were married in this city on December 22, 1838. Mr. Rusier was born in Germany, February 22, 1837, and Mrs. Rusier, formerly Julia A. Trickey, was born near this city in 1838.

Mr. Rusier entered the service of the B. & O. railroad company at Columbia Center as a section man, in 1864. For many years he was the section foreman at Summit Station, and has been in the service of the railroad company practically all of his life in this country. He is at present employed as watchman at the Main Street crossing in Summit Station. The celebration of the anniversary consisted of a family dinner and social conversation, making the event a most enjoyable one long to be remembered. Many numerous presents were received by the celebrants.

Anty Drudge to the Rescue.

Dorothy—"Just look, Anty, what this absentminded Gussie did. I asked him to put a cushion on my chair and the chocolates on the table and he did it just the other way. I don't know whether these stains will ever come out."

Anty Drudge—"Oh! Yes, they will, Dorothy. Don't let that ruffle the course of true love. A little Fels-Naptha in lukewarm water will take out any kind of stains in a twinkling. Make Gussie get you a cake of Fels-Naptha and you can do it yourself with only the least bit of work."

If it were only to save women who wash clothes from getting red and chapped hands in Winter-time, Fels-Naptha soap would be a great blessing.

Most everyone knows that putting the hands in hot water is what makes them red and rough. Then, when exposed to cold air, they crack and chap.

With Fels-Naptha, you use only lukewarm water. Your hands don't suffer.

And yet Fels-Naptha cleanses your clothes more thoroughly in lukewarm water, without boiling or hot suds or hard rubbing, than any other way of washing.

Not only the white things, but woollens, flannels, colored fabrics.

Fels-Naptha is the very best soap to wash with all the year round.

It is especially good in winter.

Try it. It will save your health, save work, trouble, fuel and discomfort.

Follow the simple directions printed on the red and green wrapper.

ABOUT—

Suits and Overcoats that appear pretty good when first donned often begin to have "that careworn look" after a few weeks' wear. It's all the way they're made and what they're made from that makes OUR Clothing so much longer lived than ordinary made clothing. They hold their shape and are always stylish. That is the kind of clothing we are offering you today at reduced prices.

GAVE AWAY
ONE OF THEIR
TWIN BABIES

Pathetic Incident in Probate Court on Tuesday Morning—News of the Various County Offices.

A pathetic incident occurred in the Probate court Tuesday morning, that of a man and his wife giving away one of their little twin babies. Frank Courta and Rosa Courta, Hungarians, who have been in this country but a short time, are the parents of twin daughters, a little over one year of age. For some reason or other they desired to part with one of the infants, and to that end surrendered little Lizzie into the custody of Andrew and Barbara Cullough, who had signified a desire to adopt her. All the parties appeared in the Probate court, the babies lying side by side in the little crib. When the adoption papers had been made out transferring the child to Mr. and Mrs. Cullough, and the little one was handed over to them it reminded one of a little lamb being taken away from its mother, and tears were brought to the eyes of several who witnessed the incident. The parents, however, were stolid and unmoved, and seemed to view the whole proceedings as a matter of pure business.

Juvenile Court.

Two small boys, charged with train riding, were brought before the Juvenile court Tuesday morning. Judge Brister read them a severe lecture, and on their promise to be good they were discharged.

Precipes Filed.

Precipes for a number of grand jury witnesses have been filed with the clerk, and the subpoenas have been served by the sheriff. The grand jury will receive the instructions of the court on January 4th, when the new term of court begins.

Failure to Provide.

Kalman Berke was arrested on a warrant issued by Justice Holton, charging him with failing to provide his five minor children with food and clothing, and with a home. He was bound over to the Common Pleas court in the sum of \$100.

For Slander.

A warrant was issued by Squire Holton for the arrest of Kate Vargo, on the charge of slandering Mary Barke. The Vargo woman was brought into court and was bound over to the Common Pleas court in the sum of \$100.

Common Pleas Court.

In the case of the Citizens Building and Loan Association company vs. Theo. Simross, et al., sale was reported made and regular; sale confirmed, deed and distribution order.

Arthur J. Kennedy vs. Newark Sanitarium company, same order.

J. H. Porter vs. H. C. Weaver, judgment of settlement.

Licking Light and Power company vs. W. V. Boggs; order made to appraise personal property and appraisers appointed.

A. M. Coulter vs. Sarah E. Hughes a petition filed to recover commission on the sale of real estate. Demurrer overruled.

B. G. Dawes vs. Frank G. Warden; motion to make petition more definite and certain overruled.

Herbert Brooks vs. Clementine Roche; motion for judgment notwithstanding verdict and for a new trial overruled.

Austin Carpenter vs. R. M. Colville; motion to strike out portions of petition overruled. Leave to answer in 30 days.

The court called the January term docket and made an assignment of cases for trial. As has been customary, the first two weeks of the term will be devoted to hearing equity cases, motions and demurrers; the balance of the term to jury trials.

Court Notes.

The county commissioners are having the large carpet in the court room cleaned.

Judge Wickham will send to the

clerk some day this week decisions in the cases now in his hands.

The assignments of case, equity and jury, will be printed for the convenience of attorneys and clients.

STOP DRINKING!

Orrine Destroys the Craving for Drink—Cure Effectual or Money Refunded.

It was formerly customary for the habitual drinker to take the pledge regularly, sometimes once a year, and sometimes in every fit of remorse that followed his debauches, and then—Break it.

But now it is gradually dawning on the world that pledges do not stop drunkenness. When a man takes a pledge voluntarily, he expects to keep it. Every man expects to keep his word and every broken pledge costs the drunkard many a heartache. But he cannot help it. He fights as long as he can, then succumbs to the craving. The nervous system of the habitual drunkard is diseased and he must have treatment that will cure this condition.

Orrine is sold under a positive guarantee to cure the drink habit or the money will be refunded. No other treatment for the liquor habit is sold under such a liberal guarantee.

Orrine is prepared in two forms: No. 1 a powder, perfectly tasteless and colorless, which can be given secretly in any food or drink. Orrine No. 2 is in pill form, for those who wish to be cured of the habit, and it should be taken by everyone who swears off.

No matter which form of Orrine is used the guarantee is the same. The price of Orrine is \$1.00 per box, mailed in plain sealed wrapper upon receipt of price. Write for free booklet on "How to Cure Drunkenness," (mailed in plain sealed envelope,) by The Orrine Co., Washington, D. C. Orrine is sold by Frank D. Hall, 10 North Side Square.

I NEED TWENTY-ONE THOUSAND DOLLARS. ED DOE.

SAME LAWS FOR
TRUST MAGNATES
AS LABOR LEADERS

(New York World.)
Is it easier to find the "one re-
sponsible man" in a labor union than
in a corporation?

Is it easier to enjoin a labor leader
from violating the Sherman law than
to enjoin a Rockefeller, a Ryan, a
Harriman or an Armour?

Is it easier to sentence a labor
leader to jail for contempt of court
than to sentence a trust-magnate?

In the Gompers-Mitchell-Morrison
case the defendants were charged
specifically with "restraining trade
among the several states" and with
"restraining commerce among the
several states." Proceedings were not
instituted against the American Fed-
eration of Labor or against the Fed-
erationist, but against Mr. Gompers,
Mr. Mitchell and Mr. Morrison per-
sonally. When the court found evi-
dence that the injunction had been
violated, sentence was imposed upon
the individuals, not upon the associa-
tion or its magazine. In other words,
the court went straight to the three
responsible men.

Yet when Woodrow Wilson, Judge
Parker, Mr. Bryan, The World and
others urged Mr. Roosevelt to use his
power to punish the "one responsible
man" for violation of the Anti-Trust
law we were all denounced in a mes-
sage to Congress as emissaries of the
corporations. To quote Mr. Roose-
velt's exact words in his special
message of January 12, 1908:

The attack is sometimes made op-
enly against us for enforcing the law,
and sometimes with certain cunning,
for not trying to enforce it in some
other way than that which experience
shows to be practical. One of the
favorite methods of the latter class of
assailants is to attack the administra-
tion for not procuring the imprison-
ment instead of the fine of offenders
under these anti-trust laws. The man
making this assault is usually either
a prominent lawyer or an editor who
takes his policy from the financiers
and his arguments from their attor-
neys.

The World believes in one law for
Gompers and Rockefeller; in one law
for Mitchell and Ryan; in one law for
Morrison and Harriman; in one law
for labor unions and Wall Street. If
it is "practical" to obtain writs of
injunction restraining labor leaders
from violating the Sherman law, it is

Little Soldiers
your blood are the millions
corpuscles that defend you
against disease.
To make and keep these little soldiers
healthy and strong, is simply to make
and keep the blood of the right quality
and quantity.
This is just what Hood's Sarsaparilla
does—it helps the little soldiers in your
blood to fight disease for you.
It cures eczema, eczema, eruptions,
stomach, rheumatism, anemia, nervous-
ness, dyspepsia, general debility, and
quids up the whole system.

equally "practical" to obtain writs of
injunction forbidding trust managers
from violating it. If it is "practical"
to sentence labor leaders to jail for
violating such court orders, it is
managers to jail for violating them.
It is no more difficult to find the "one
responsible man" in one case than in
the other.

When the trades-unionists charge
that nobody but labor leaders has
ever been sentenced to imprisonment
under the Sherman law, they frame a
damning indictment against Mr.
Roosevelt and his administration.
How can these men be expected to
respect a law which the President of
the United States himself does not re-
spect, and which he has persistently
refused to enforce against any indi-
vidual "malefactor of great wealth."

One of the notable features of the
fight for United States Senator in Col-
umbus is the active and united effort
of the Republican state organization
bosses in the interest of Taft. Nor-
withstanding the fact that of the half
dozen candidates any one of them
has as much merit as Taft and some
of them much greater public senti-
ment in their favor, the Republican
state organization, which should
treat all Republicans alike in such a
contest, is centering its whole power
in behalf of Taft's election. The situ-
ation certainly is abhorrent to all
Republicans who think their party
should not be ruled by bosses.

and Organization to be Perfected
Next Monday Evening.

A permanent Licking County Demo-
cratic club is to be organized in this
county and will undoubtedly prove of
great benefit in future campaigns.
Steps to that end were taken Mon-
day evening when a number of gen-
tlemen met in the late Democratic
headquarters and took preliminary
measures for the successful launching
of that organization. Those present
signed a charter list which will be
kept open for the next meeting,
which will be held Monday evening,
January 4, at which time a permanent
organization will be effected.

At the meeting Monday evening
George W. Horton, chairman of the
county executive committee, presided,
and Prof. O. C. Larason acted as sec-
retary. A splendid constitution and
by-laws were adopted and upon mo-
tion it was decided to attend the in-
auguration of Governor-elect Judson
Harmon in a body. Arrangements
will be made to have a band accom-
pany the club to Columbus but those
preparations will be made at the next
meeting.

The club is the outgrowth of a
movement started by a number of
prominent Democrats who were of
the opinion that a permanent club
would result in much good both so-
cially and politically. Quarters will
be secured and will be nicely fitted up
and the club will meet once a month
and discuss political and public ques-
tions. These clubs have proven of
great benefit in other cities and have
become a power not only in county
but in state politics. The meeting
Monday evening was enthusiastic and
tends to show from the interest man-
ifested that the Licking County club
will be an assured success.

All loyal Democrats of Licking
county are urged to join the club. By
doing so before next Tuesday they
can become charter members.

CARPENTER IN ASIA

Since Russia's defeat by Japan the
other side of the globe has become the
world's chief news center. All Asia
is now in a turmoil of unrest and the
air is full of rumors of war.

To give its readers the truth about
the movements which are going on in
that country, Frank G. Carpenter, the
correspondent of The Pittsburg Dis-
patch, who is known the world over
as one of the most interesting news-
paper writers of this age, has been
sent to Asia, and commencing the first
Sunday in the new year his illus-
trated letters will appear every Sun-
day in The Dispatch.

Mr. Carpenter has already left the
United States and is now traveling in
Japan. Leave your order with your
newsdealer and be sure that he de-
livers you The Dispatch every Sunday.

AMUSEMENTS

Monday's Advocate stated
that "Ma's New Husband"
would appear at the Auditor-
ium in this city on Wednesday
afternoon and evening, Dec. 30.
This is a mistake, as the com-
pany will appear here Saturday
afternoon and evening, Jan. 2.
This splendid play is full of
side-splitting situations and the
musical numbers include all the
new and popular songs and sev-
eral pleasing dancing numbers.

THE PRESS AGENT SAYS:
The Eastern production of "Fifty
Miles from Boston," George Cohan's
sensational success, is numbered
among the January booking of the
Auditorium.

Miss Mary Malatesta, prima donna
of "The Royal Chef" company which
opens at the Auditorium January 1,
matinee and evening, speaking of her
gowns, says:
"I am proud of the fact that my
gowns in this production are absolute
models and not copies of anything
that has been seen before. There is
something in originality when it is

THE ROYAL CHEF

shown in dresses which is bound to be
attractive to the public eye. Of course
everyone likes to see a well dressed
woman, and when one goes to see as
handsome a production as 'The
Royal Chef,' one naturally expects to
see the very finest creations of the
modiste's art." The entire company
which is conspicuous for merit, is the
only and original organization and
will be seen here complete in every
detail.

That merry, romping musical farce,
"Ma's New Husband," will appear at
the Auditorium theater on January 2,
matinee and night. From all accounts
it is one of the big laugh-makers of
the season, and the management has
been obliged to promise return dates
in nearly every city that it has played
in order to satisfy the popular de-
mand. The company has been receiv-
ing glowing press notices for clever,
rapid-fire work and for the singing
and comedy merit of the individual
members.

Glaude Thardo is amusing the Or-
pheum patrons this week with his
funny songs and witting sayings. The
former Newark boy is receiving very
hearty greetings from his old friends.
Frances Hort and company in a lit-
tle comedy sketch, are very pleasing,
their act being well dressed and cle-
verly acted, especially the part of the
young wife by Miss Hoyt. Prof. Dub-
be's trained animals are good and
he introduces some new features.
The song and dance team have some
popular songs and receive generous
applause.

FREE SHOW AT ARMY.

At the Armory Thursday evening,
December 31, a free moving picture
show including illustrated songs and
a lecture, will be given under the aus-
pices of the Trades and Labor Coun-
cil. No admission fee will be charged
and no collection will be taken.

The Boot and Shoe Workers' Inter-
national Union is bearing the ex-
penses of the attraction. The object
is to teach people to look for the
union label and to show by means of
the stereopticon where it may be
found on various articles. A lecture
will explain the purposes and inter-
esting moving pictures will also be
shown. A soldier who accompanies
this show, will sing. The show will
be free and all are invited.

the statement I gave ten years ago
setting forth the merit of Doan's Kid-
ney Pills. Before using this remedy I
was a victim of kidney trouble and
was caused much suffering from se-
vere pains through my back. Stooping
or attempting to stand in an erect
position, caused excruciating twinges
to shoot through me and I was often
in misery. Doan's Kidney Pills, pro-

EARTHQUAKE

(Continued from Page 1.)

tween 65,000 and 75,000 dead, and twice that number injured or suffering from hunger and exposure.

New York, Dec. 29.—Following the lead of Enrico Caruso, the members of the grand opera companies are to give benefit performances for victims of the earthquakes. Caruso donated a week's salary, \$2,500, to help his suffering countrymen.

Washington, Dec. 29.—President Roosevelt today sent a cablegram of condolence to the king of Italy, expressing the sympathy of the American people for the earthquake sufferers. He also said the American Red Cross has issued a call for contributions. He said they would communicate with the Italian Red Cross.

Out of a population of 25,000 in the town of Reggio, eighty per cent are killed or injured. The town is believed to have been literally blotted out. Martial law has been declared and troops are ordered to shoot all found committing depredations.

The destruction of Messina was caused more by a tidal wave than by the earthquake. Gigantic waves swept over the city, literally dropping it into the sea. Refugees estimate the number of dead here at 12,000. The refugees say the quake seemed to be upward in movement, tending to toss buildings in the air. Great crevices opened in the earth, and the mountain sides cracked and slid off into the valleys in terrible landslides. Fires broke out in almost every town and destroyed everything.

It is thought hundreds of vessels were lost in the whirl of waters at the time of the quake, and deaths from this source will reach into the hundreds.

Word was received at the vatican that many priests and nuns were killed in monasteries and churches. The news greatly moved the pope.

Thousands of people rushed for the churches when the shock came and could not be driven out. Deaths are numerous from congested conditions in the churches.

New Haven, Conn., Dec. 29.—No word has been received from Dr. Arthur Cheney, American consul at Messina, and it is feared he lost his life in the disaster.

FOOLED THEIR MANY FRIENDS

POPULAR YOUNG COUPLE MARRIED AT COVINGTON, KY., OVER YEAR AGO.

Raymond Burch and Miss Ethel Myers Kept Their Secret Well—Receiving Congratulations.

Score one for Dan Cupid and romance! The foxy little lad of wings and scant clothing has done lots of funny things, but one of his 1907 pranks that has just come to the public ear through authentic sources, is worthy of recognition any old time.

Miss Ethel Myers, a popular young woman of Newark, who was formerly a clerk in Meyer & Lindorf's store in this city, and Mr. Raymond Burch, torman of the department of car inspection in the local B. & O. shops, were married in Covington, Ky., on December 16, 1907, and nobody in Newark knew of the nuptial negotiations until now. That is, if anyone did know, the romance was kept a secret by the use of the utmost discretion.

Since the wedding, Mrs. Burch remained at her duties at the dry goods store, lived at the home of her parents, 23 Logan avenue, East Newark, retaining her maiden name. Mr. Burch has continued his work at the railroad shops, and lived at the home of his parents on North Fourth street.

Mrs. Burch has been employed at the dry goods store for about two years, leaving there last March. During the holidays this year, while the Christmas rush of trade was on, she returned to the store and worked for two weeks, until Christmas eve.

It was rumored among the clerks that their companion had been married last fall, but the young woman denied that such was the case, and quite truthfully, too, for it happened many months before that. It is understood that the object in keeping the wedding a secret was that they might surprise their friends, but as time passed on, the novelty of the situation grew and the couple kept up the deception, which has undoubtedly proven a rare joke on inquiring friends.

Both Mr. and Mrs. Burch are very popular young people who will, even at this late date, receive many congratulations from admiring friends.

"UNWRITTEN LAW"

May Yet Play Important Part in the Hains Trial—Justice Crane's Statement.

Flushing, Dec. 29.—It is probable that the "unwritten law" may yet play a part in the Hains trial although Justice Crane says he will instruct the jury that it has no bearing on the case. This was indicated when Samuel C. Ried, a life long friend of the Hains family was called to the stand this morning. He told the story of the actions of Captain Hains when Ried spent three days at his home. He said Hains told him his home had been broken by Annis. Justice Crane in ruling on admissibility of certain evidence said "adultery was no excuse for murder, and he would make this plain to the jury."

This Recipe for Home-Made Cough Cure Is Worth Saving.

Most of the suffering and most of the serious diseases that result from colds and coughs could be entirely prevented if the proper medicine were on hand and could be taken conveniently when the first signs of trouble appeared.

By saving the recipe given below you will always have an excellent prescription for colds and coughs. Or better yet, by making up the remedy you will always have it handy. A teaspoonful dose, taken when the first symptoms arise, will ward off a vast amount of suffering and possible danger. This is the recipe:

Granulated Sugar Syrup.....12 1/2 oz.
Pinex 2 1/2 oz.
Put the Pinex (50 cents) in a pint bottle and fill up the bottle with the Granulated Sugar Syrup, made as follows: Take a pint of Granulated Sugar, add one half cup of water, stir and let boil just a moment. If kept well corked it will never spoil, so that this pint of cough medicine will last a fairly long time. It can be made in five minutes at a total cost of about 54 cents, and is very pleasant to take. A teaspoonful every one, two or three hours as required. Simple as it is, it is in every way superior to the ready-made syrups remedy for whooping cough, pains in the chest, bronchial troubles, hoarseness, etc.

In using this recipe get the real Pinex, which is the most valuable concentrated compound of Norway White Pine Extract and is easily remedied for whooping cough, pine tar preparations. Your druggist has it or will gladly get it for you if you ask him.

NO LIMIT ON ROOSEVELT'S HUNT

President Privileged to Shoot Any Animal in Africa.

GAME LAWS THROWN ASIDE.

British Authorities, by Special Courtesy, Give Him Permission to Kill What He Pleases and as Much as He Can—Hunting License Free.

By special courtesy of the authorities in British East Africa Theodore Roosevelt will be privileged to shoot at any beast, bird or reptile that gets in range of his gun, whether or not it is preserved against ordinary hunters. Mr. Roosevelt will be privileged also to shoot at as many of each particular species of beast, bird or reptile as he pleases, whether or not the game law forbids lesser Nimrods to kill more than a certain number. As a further courtesy the British authorities will present a hunting license, which ordinarily costs \$250, to Mr. Roosevelt and will not ask tuppence for it.

So William Northrup McMillan of St. Louis recently told the New York World's London correspondent. Mr. McMillan, a nephew of former United States Senator McMillan of Michigan, probably has killed more big game in South Africa than any other American. He will entertain Mr. Roosevelt for a few weeks on his farm near Nairobi, British East Africa, in a country that is the big game hunters' paradise. Mr. McMillan has been corresponding regularly with Mr. Roosevelt since the president decided to go hunting in Africa, has been advising him on some points and making some arrangements looking to Mr. Roosevelt's comfort and success. In giving some interesting details of the president's plans Mr. McMillan said:

"I shall not accompany Mr. Roosevelt on his trip because he wants to be entirely alone so that he and his son can do all the shooting. However, arrangements have been made with Richard Cunningham, a young Scotch gentleman, who speaks several African languages perfectly and is thoroughly up on big game shooting there, to take charge of the equipment of the expedition and to manage it. Besides Mr. Cunningham two experts from Washington will go along to treat and preserve the trophies of the chase, and, I think, an expert in woodcraft from California will be of the party.

"The working part of the expedition will consist most likely of a couple of gun carriers, a cook, the personal servants and several Askaris, who will act as sentries and keep watch of the porters, of whom there will be fifty, all natives, each carrying the regular load of sixty pounds. A few ponies may be taken along for trekking.

"Mr. Roosevelt will land in Mombasa, in British East Africa, the terminus of the Uganda railway, on April 22. Almost immediately he will take the railway and travel to Muchakos Road station, 200 miles northwest of Mombasa. At Muchakos Road station he will leave the railway and travel twenty miles to pay a fortnight's visit to Sir Alfred Pease, an old friend, who has hunted with the president in America. Colonel Sir James Hayes Sadler, governor of British East Africa, and Lieutenant Governor Jackson, who is in charge of the department of hunting, will meet Mr. Roosevelt at Sir Alfred Pease's farm.

"From there Mr. Roosevelt will move up to my place, twenty-three miles from Nairobi, and will spend two or three weeks with me before plunging into the wilds. He will go some 150 miles to the northwest into Uganda and the country surrounding Lake Victoria Nyanza. After this his route is uncertain. I suggested one route; others have suggested different ones. Mr. Roosevelt wants to decide for himself after he sees the country.

"Altogether he will cover probably more than a thousand miles by caravan. After he has hunted enough in British East Africa, instead of going straight to Gondakora, the highest point on the Nile reached by navigation, where the governor of the Sudan will have a boat waiting for him, Mr. Roosevelt most likely will make a detour into the Belgian Congo in the hope of bagging a white rhinoceros.

"The game in the districts Mr. Roosevelt will pass through includes the elephant, lion, buffalo, hippopotamus, giraffe, zebra, eland and many other kinds. Usually a hunter must hold a \$250 license and make a report of his kill to the department of hunting, but special courtesy will be extended to Mr. Roosevelt, allowing him to shoot whatever he likes free."

Mr. McMillan calls South Africa his home, but he passes a few months of each year in his London house, which is literally filled with trophies of the chase. He will visit India and return to his farm near Nairobi before Mr. Roosevelt lands in Africa.

White Fezzes For Turks.

Turkey is fighting Austria in the most modern way by waging a trade war in the form of a vigorous boycott of Austrian goods. Many demonstrations have taken place in Constantinople, and shops have been threatened with wreckage unless their owners give up the selling of articles imported from Austria. One of the most curious signs of this trade war has been the discarding of the red fez by many Turks. This particular fez is made in Austria and the patriotic Turk has substituted for it the home-made white fez.

The One Effective Substitute for Calomel

Everyone knows that calomel is one of the best of laxatives—we mean the best to produce bowel action and regulate the liver.

But calomel is injurious—its after effects are not only unpleasant, but in many cases dangerous. Doctors have sought for years to discover a substitute. It remained for Dr. Edwards to develop a substitute.

For 15 years, while practicing, he sought the desired compound for the sole benefit of his patients. He developed it to perfection and found it too good to confine to a few. So it is now placed within reach of all.

This compound is today in tablet form at all druggists. You get it by asking for Dr. Edwards' Olive Tablets. 15 tablets for 10c. 45 tablets for 25c. in packages. When you feel that you need a laxative—feel that the liver needs toning, try Olive Tablets. They act pleasantly. They taste good, being sugar-coated. They contain olive oil—a healer and a fine laxative.

Take one at bed time. Note how good you feel in the morning. Try them in place of headache medicine. You can take as many as you want without harm, yet one or two is sufficient and prompt. Buy a small package of your druggist today. Let them prove how much better they are than anything else of the kind that you know for the liver and bowels.

ALBERT A. STASEL.

Former President of the Newark club one of the committee on expansion.

have been made but the deal may be closed. If the deal pans out satisfactorily Newark will be the farm of this club, and a player-manager, a pitcher of ability, will be sent to take charge of Watkins' interests here.

The first annual meeting of the Ohio State league was held in Columbus, Monday, and the clubs composing the circuit will have a better season than they did last if all plans are realized. President Robert Quinn was re-elected to the high office of the league, but not until the guarantee was raised. Then, when his election was made unanimous he accepted, and for another season the league will have for its executive head, one of the most experienced men in baseball.

President Davidson of the championship Lancaster club made a proposition that was favored by all the moguls present, and that was that the season does not open until Thursday, April 22. The season will also close September 7. Labor Day, instead of running to the 15th of the month as was done last year. It will mean that 140 games will be played instead of the 150 the clubs played last year.

Each team will visit each city in the league 14 times during the season, and it is believed by those present that the shortened schedule will meet with the approval of the patrons of the game all over the circuit.

The Lancaster club had a stiff money losing proposition to face at the start of last season, for floods buried their ball park prevented their playing many games, and it is thought that for this reason the starting of the season a little later may prove the means of saving all the clubs some money.

The league will have no bad luck to face this year as they did last, for the Portsmouth club will have the second backing of moneyed men, who will look after their city. A good deal of business was present from the River City composed of President Simon Strauss, Attorney Oscar Newman, a Director, Manager Doyle, and Sport-

ing Editor Sheridan of the Times. The men worked hard for their club last season, and to their efforts is due the fact that the league finished the season, after the Springfield tryout proved disastrous.

The Marion delegation was composed of President Wollenwebber, Director E. J. Staiger and Manager O'Day. Secretary Nothacker and Director Gray were there from Lancaster, President Sturges was the one representative from Mansfield, while

EUGENE KOOS.

A Director of the Newark club, and an important factor in Monday's meeting.

President Schoenborn and Business Manager Dunnigan looked after Lima's interests. From Newark Directors Stasel and Koos were present and worked hard for the Newark end all through the meeting.

After the business session that lasted over two hours the election of officers took place and Quinn was re-elected as was R. W. Read secretary. At first it appeared as though Mr. Quinn would not accept the chair for another season, for some experiences during the past year were trying ones. Yet when all the club officials agreed to work with him and make some reforms that he suggested, the hushing little president capitulated to the wishes of the club representatives.

In Quinn the club had an able president during the season past, and he worked untiringly for the interests of his league. In every case where he passed judgment it was agreed that he was in the right. The season when it opened was a tempestuous one, but after one or two managers and a few players had felt his justice, things then ran along very smoothly.

Whether the league will be composed of more than six clubs is a matter of question at present. President Quinn reported that he had been in Chillicothe in conference with the promoters of baseball in that city, and that about \$5,000 had been raised to start a club there. Reports were made on several other cities that wish to gain admission to the league and a committee on expansion composed of President Quinn, Albert A. Stasel, Simon Strauss and Paul Sturges will have this matter in charge.

CARR-HOOVER.

News of the wedding of Miss Gertrude Hoover, the daughter of Mr. and Mrs. J. B. Hoover, of West Church street, has just reached here many friends in this city. Miss Hoover, who for two years conducted a millinery store in Cincinnati, was married on the 16th of this month, to Mr. Augustus Carr, a retired attorney of that city, who was for several years a member of a well known Cincinnati law firm. Mr. and Mrs. Carr will reside in Cincinnati, removing into their new home on Linwood avenue in that city in the spring.

Mrs. Carr spent the winter with her parents in this city after selling out her millinery house last fall.

The bride has a great many friends in Newark who will be pleasantly surprised by the news of the marriage.

OBITUARY

MRS. ANDREW WORLEY.

Rebecca R. Baughman, daughter of Isaac and Mary Baughman, was born in Licking county, O., January 3, 1833, departed this life December 26, 1908, aged 75 years, 11 months and 23 days.

She was the second child of a family of nine children, seven girls and two boys, of which three girls only survive, namely: Mrs. J. R. Worley of Mt. Vernon, O., Mrs. Richard Bess of Eldred, Pa., Mrs. William Mattox of Newark, O. Her two brothers were killed in the war of the rebellion.

She was united in marriage to Andrew Worley, November 2, 1852. To this union were born six boys, five of whom survive her; also one adopted daughter. They are William and Douglass of Newark, O., Budd and Charles of Utica, James of Delaware, O., and Mrs. D. E. Camp of Newark. The above mentioned and the aged and kind husband are left to mourn their loss.

She united with the Methodist Episcopal church of Utica about 49 years ago, and has been a consistent member ever since. Although being afflicted in her later years so she could not always attend the means of grace, yet she showed by her daily life that her heart and mind were with the work of the church. Her life was a patient one, enduring even to the end without murmur or complaint. Many were the kindly ministrations she gave to the suffering as well as the poor and needy, and no one knew her but to love and respect her.

Her life was one of deeds not theories, of faith, not doubt. And so in closing we would use the words found in the book of Revelations 14th chapter, and part of the 13th verse: "Blessed are the dead which die in the Lord from henceforth: Yea, saith the Spirit, that they may rest from their labors; and their works do follow them."

Funeral services were held from the home of her son, William Worley, of 131 North Pine street, December 28th, at 9 o'clock, where she had resided the past two years, conducted by the Rev. L. C. Sparks of the First M. E. church, and which was attended by a large concourse of relatives and friends. Interment at Utica, Ohio.

CARD OF THANKS.

We desire to thank the kind neighbors and friends who assisted us during the illness and death of our beloved wife and mother. We shall ever cherish this kindness shown us during our recent affliction. Andrew Worley and Family.

POLICE FORCE AND FIRE DEPARTMENT MUST BE REDUCED

Sufficient Funds Cannot be Raised by Taxation to Make Up Loss of the Liquor Tax.

"The number of men in both the police and fire departments and the number of street lights will have to be reduced, soon, probably, for we won't have the money to pay them," said President Harry Rosell of the City Council to an Advocate reporter, Monday afternoon, in answer to questions that were asked him.

"At the present time the police force consists of twenty-five men, and this cut will mean that about fourteen of them will remain on the city's pay roll. Probably six or seven city firemen will lose their jobs."

According to the statement of the president of the Council this crippling of two of the most important departments in the city will be a serious blow to the residents of Newark, for it will mean that just that much protection they have had from criminals and just that much protection they have had from fires will be done away with.

Yet this is exactly the proposition that the City Council is facing, and as there is no other way out of the difficulty the departments will have to be reduced. There aren't too many policemen to guard the people now, yet just half the present number will have to do the work that twice their number did.

The fire department of the city has been a source of pride to the city, for they have fought well, and their efficiency is due to the fact that their property has been saved, and several of these men will be discharged from the pay of the city, according to the statement of the head of the council.

The law governing the city taxes limits the council to the use of ten mills for all purposes, out of, or against the grand duplicate of approximately \$9,000,000. Of this 10 mills \$3-4 mills are now being used in the council for general purposes. This will mean that the council will have an additional 1-4 mills to make up the deficiency caused by the loss of \$38,000 derived from the Aiken liquor tax.

The public safety fund, controlled by the Public Safety Board which has control of the police and fire departments of the city, received \$3-4 mills out of the \$3-4 mills now in use for all purposes.

The \$38,000 was divided equally between the public safety fund and the general fund, and meant that each received \$19,000 for their respective use. Using the entire 10 mills these two funds will receive about \$11,000 each for their use instead of \$19,000 as in former years with the additional \$3-4 mills that was allowed the public safety fund.

The council has figured different propositions so that these two important departments of the city would not be affected, but there seems to be no other plan to raise the money.

At the present time the police department consists of the chief, the captain, four wagonmen, two turnkeys, one crossing watchman and 16 patrolmen. The crossing watchman may be taken off duty and many of the patrolmen will be caught in the required reduction, for the chief officers, the wagonmen and the turnkeys will have to remain on duty.

Would Mortgage the Farm.

A farmer on Rural Route 2, Empire, Ga., W. A. Floyd, by name, says: "Bucklen's Arnica Salve cures the two worst sores I ever saw; one on my hand and one on my leg. It is worth more than its weight in gold. I would not be without it if I had to mortgage the farm to get it." Only 25c at Frank D. Hall's drug store.

PITTSBURG FLYER

Has Trouble Once More at Fourth Street Crossing—Engine and Tender Jump Track.

For the third time inside of two weeks an accident has occurred on the Panhandle crossing tracks, near the Fourth street crossing, this city. Tuesday morning as Panhandle passenger train No. 44 east bound, drawn by engine 5579, the same train that figured in the wreck a week ago last Sunday, was pulling into the city at an early hour, the engineer slowed up as the train approached the Fifth street crossing, and lucky it was that he did so. As the train moved over the tracks, at Fourth street the engine went down the west bound track and the tank went down the platform or east bound track. The engineer succeeded in bringing the train to a standstill almost at once, but not before the track had been spread for several lengths. The Panhandle wreck train was rushed over to Newark but it required several hours work before the damage was repaired. No one was injured.
